

REMARKS

The specification has been amended to insert sequence identifiers for sequences disclosed in the specification and drawings.

As a separate Sequence Listing is required to be filed with the application, pages 25-27 are being deleted and pages 28-32 are being renumbered.

A revised Sequence Listing, incorporating all of the sequences falling within the requirements of 37 C.F.R. §1.821(a), is also being submitted. Applicants respectfully request entry of the revised Sequence Listing.

No new matter has been added.

Entry and consideration of this Amendment are respectfully requested.

Respectfully submitted,
